

# CALL FOR PAPERS

**ICAGFCA 2022**  
**May 17-18, 2022**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGFCA 2022 : International Conference on Advances in Green Fluorine Chemistry and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Green Fluorine Chemistry and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Green fluorine chemistry  
Fluorine and the environment  
Recent advances in green fluorine chemistry  
Green surfactants for fluorine chemistry  
Fluorine in organic chemistry  
Organic fluorine chemistry  
Fluorinated pharmaceuticals  
Organo-fluorine chemical science  
Fluorination of organic compounds  
Flow microreactor synthesis in organo-fluorine chemistry

Fluorine in pharmaceutical industry  
Preparation of highly fluorinated compounds  
Selective fluorination  
Nucleophilic displacement of halogen from fluorocarbon systems  
Elimination reactions  
Polyfluoroalkanes, polyfluoroalkenes, polyfluoroalkynes and derivatives  
Functional compounds containing oxygen, sulphur, nitrogen and their derivatives  
Polyfluoroaromatic compounds  
Organometallic compounds
