

# CALL FOR PAPERS

**ICER 2022**  
**May 27-28, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICER 2022 : International Conference on Ecological Restoration is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecological Restoration. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Air Quality  
Art and Ecological Restoration  
Assisted migration  
Bio Monitoring  
Biodegradable Materials  
Biodiversity  
Biodiversity restoration/ inter and intraspecific functional diversity  
Challenges (particular issues and obstacles to face in the real world)  
Clean Energy  
Climate change and ecological restoration  
Communicating restoration science: outreach, extension, training  
Community engagement in ecological restoration: traditional knowledge, social perception  
Conservation

Deforestation  
Desertification  
Ecological processes, ecosystem functioning and services  
Ecological Restoration  
Ecological theories and restoration/Restoration Ecology principles  
Economical, social and philosophical implications  
Economy of ecological restoration (costs, funding, profitability, jobs, livelihoods, ecosystem services)  
Environmental Impact Assessment  
Ethics and values (philosophical aspects of restoration)  
Failures and mistakes in restoration projects and decisions  
Farming Methods and the Environment  
Fire management in ecological restoration  
Genetics in ecological restoration
