

CALL FOR PAPERS

ICSNPTID 2022
May 27-28, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSNPTID 2022 : International Conference on Sustainable Nuclear Power Technologies and Industrial Drivers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Nuclear Power Technologies and Industrial Drivers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable nuclear power technologies
Nuclear power and sustainable development
Emerging fuel technologies and policies impacting these technologies
Energy reserves and renewable energy sources
Production of electricity
Energy in heating, ventilation, and air conditioning
Electrical power as sustainable energy
Atomic processes
Recycling and waste handling for spent nuclear fuel
Nuclear power plant design
For-profit industrial drivers
Sustainable nuclear energy
Sustainable development and nuclear energy

Indicators
Economic dimension
Competition
External costs and benefits
Environmental dimension
Natural resource management
Radiological protection
Safety
Third party liability
Radioactive waste management
Social dimension
Human capital
Institutional framework
