

CALL FOR PAPERS

ICCRST 2022
May 20-21, 2022
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCRST 2022 : International Conference on Computers, Radiology, Surgery and Therapy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computers, Radiology, Surgery and Therapy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced medical imaging
Radiography and Radiotherapy
Image- and model-guided
interventions
Interventional Radiology and
Mammography
Image processing and visualization
Intelligent operating room of the
future
Oncology and Radiology
Decision and action support in
surgical management
Computer aided diagnosis
Medical simulation and evaluation,
and e-Learning
Surgical navigation and robotics
Model-guided and personalised
medicine

Integrated patient care
Computer aided neuro-, ENT-,
orthopaedic and spinal
surgery, cardiovascular- and
thoracic surgery,
gastroenterological-,
gynaecological- and urological
surgery
Imaging and interventional
radiology
Computers, Radiology, Surgery and
Therapy
Computed maxillofacial imaging
Computer assisted radiation
therapy
Image guided navigation surgery
Minimally invasive and robotic
surgery
Pathology informatics
Radiation Oncology
Radiobiology and Medical Physics
