

CALL FOR PAPERS

ICNER 2022
Jun 28-29, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNER 2022 : International Conference on Nanozyme Engineering and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanozyme Engineering and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanozymes
Nanotechnology, biology and enzyme engineering
Recent research trends and future prospects in nanozymes
Nanozymes for treating viral infections and cancer
Metal oxide-based nanozymes
Metal-based nanozymes
Carbon-based nanozymes
Design and synthesis of nanozymes
Optimization of nanozymes
Nanozyme construction and production
Enzyme engineering and technology

Computational enzyme design
Nanozymes for engineering applications
Engineering and next-generation sequencing
Structural biology and enzyme engineering
Biomimetics and biomanufacturing
Metabolic engineering and synthetic biology
Protein aggregation and stability
Cell culture engineering
Molecular engineering and design
Enzyme engineering and vaccine manufacturing
Bioconjugates and glycoengineered antibodies
