

# CALL FOR PAPERS

**ICABE 2022**  
**Jun 21-22, 2022**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABE 2022 : International Conference on Advances in Biorefinery Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biorefinery Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biorefinery engineering  
Biorefinery engineering principles  
and applications  
Bio-based economy  
Efficient and sustainable refining  
of renewable resources  
Conversion of renewable resources  
Industrial biotechnology and  
enzymatic biocatalysis  
Biorefinery development  
Fermentative production

Enzymatic biotransformation  
Downstream separation and  
purification  
Process systems engineering and  
assessment  
Applied microbiology  
Bioprocess development  
Biokinetic modelling  
Solids processing  
Solid state fermentation
