

CALL FOR PAPERS

ICAGCG 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGCG 2022 : International Conference on Algebraic Geometry and Complex Geometry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Algebraic Geometry and Complex Geometry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algebra and Algebraic Geometry	Birational and Affine Geometry
Algebra and Geometry	Categorical and Analytic Invariants in Algebraic Geometry
Algebraic and Differential Geometry	Chow Group of Holomorphically Symplectic Manifolds
Algebraic Geometry and Applications	Compactification of Moduli Space of Surfaces
Algebraic Geometry and Complex analysis	Complex Algebraic Geometry
Algebraic Geometry and Complex Geometry	Complex Analysis and Algebraic Geometry
Algebraic Geometry and Derived Categories	Complex Analytic Theory
Algebraic Geometry, Particle Physics and String Theory	Complex Geometry and Foliations
Algebraic Geometry, Subgroups of Cremona groups	Complex Manifolds, Dynamics and Birational Geometry
Algebraic Structures in Convex Geometry	Differential Geometry and Vector Bundles
Around Torelli's Theorem for K3 Surfaces	Diophantine Geometry
Attractors, Foliations and Limit Cycles	Geometric Structures
Automorphic Forms and their Applications	Geometric Structures on Complex Manifolds
