

CALL FOR PAPERS

ICAPSA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPSA 2022 : International Conference on Agricultural Production Systems and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Production Systems and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Agricultural production systems
- Agricultural products and food engineering
- Advanced machinery engineering and manufacturing systems
- Animal production systems engineering
- Agricultural machinery and livestock technology
- Food science and automation technology
- Agricultural production and processing facility technology
- Farm and ranch management
- Crop management with precision farming
- Fundamental and applied aspects of food biotechnology
- Food and agricultural biosecurity
- Precision agriculture and crop monitoring
- Natural resource and ecology management
- Waste management and utilization for biosystems
- Farm buildings, equipment, structures and environment
- Agricultural engineering
- Agricultural science
- Agricultural infrastructure
- Agricultural infrastructure improvement
- Infrastructure vulnerability
- Input based infrastructure
- Resource based infrastructure
- Physical infrastructure
- Institutional infrastructure
- Agricultural product processing
- Agricultural productivity
