

CALL FOR PAPERS

ICBRPD 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBRPD 2022 : International Conference on Braided Rivers and Planform Dynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Braided Rivers and Planform Dynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Braided rivers
Braided-river systems and characteristics
River channel patterns
Braided river ecology
Braided river landforms
Depositional models of braided rivers
The mathematics of braided rivers
Braided river protection

Process and deposits
Morphological dynamics in braided rivers
Channel dynamics in braided rivers
Planform dynamics of braided rivers
Ecology and management
Braided river conservation and management
Computing representative networks for braided rivers
