

CALL FOR PAPERS

ICCP SHI 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCP SHI 2022 : International Conference on Chemical Process Safety and Hazard Identification is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Process Safety and Hazard Identification. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical process safety
Chemical process safety
fundamentals
Toxicology
Industrial hygiene
Hazard identification
Risk assessment
Loss prevention
Accident investigation
Source models
Toxic release and dispersion
models

Fires and explosions
Designs to prevent fires and
explosions
Relief sizing
Maintenance-induced accidents and
process piping problems
The role of mechanical integrity in
chemical process safety
Chemical process equipment
Design and integration
Stages of environmental, health,
and safety assessment
Safe chemical reaction processes
Process safety management
