

CALL FOR PAPERS

ICDCHS 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDCHS 2022 : International Conference on Developing Countries and Healthcare Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Developing Countries and Healthcare Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pervasive Health Systems and Services
Physiological Modeling
Practice-based Research Methods for Healthcare IT
Public Health
Healthcare professionals
Technology and Healthcare in Developing Countries
Access to Medications in Developing Countries
Affective Computing

Bioinformatics
Clinical Problems and Applications
Cognitive Informatics
Confidentiality and Data Security
Critical Care Management
Decision Support Systems
Dental Informatics
