

# CALL FOR PAPERS

**ICEBEMEIS 2022**  
**Jun 21-22, 2022**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEBEMEIS 2022 : International Conference on Evidence-Based Educational Methods and Effective Instructional Software is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Evidence-Based Educational Methods and Effective Instructional Software. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evidence-based educational methods  
Behavior analysis and education  
Principles of effective instruction  
Precision teaching  
Direct instruction  
Programmed instruction  
Personalized system of instruction  
Learning methodologies  
Education technologies

Computers and teaching machines  
Effective use of computers in instruction  
Effective instructional software  
Adaptive computerized educational systems  
Computers and adaptive instruction  
Competent learner model  
Morningside model of generative instruction  
Developments in evidence-based education
