

CALL FOR PAPERS

ICEEFTI 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEFTI 2022 : International Conference on Engineering Economics and Finance for Transportation Infrastructure is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Economics and Finance for Transportation Infrastructure. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced modeling tools (LCA, LCC, BCA, performance prediction, design tools and systems)
Case studies
Civil and Infrastructure Engineering
Data management (monitoring and evaluation)
Eco-friendly design and materials
Emerging technologies and equipments
Engineering Economics and Finance for Transportation Infrastructure
Environmental sustainability issues
Geomaterials Engineering
Geomechanics
Geotechnical Engineering

Ground improvement
Highway materials
Innovative strategies and practices
Maintenance and rehabilitation
Pavement mechanics
Pavements, tracks, and structures
Project management
Reuse or recycling of resources
Transportation Infrastructure Engineering
Transportation Infrastructure and Materials
