

CALL FOR PAPERS

ICEMSE 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMSE 2022 : International Conference on Environmental Management, Science and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Management, Science and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental Management, Science and Engineering
Natural Resource Management
Watershed/River Basin Management
Integrated Ecosystems Management
Forest and Milk Product Processing
Environmental Analysis and Monitoring
Environmental System Approach
Environmental Pollution Risk Assessment
Environmental Assessment and Programming
Wetlands
Deforestation
Solid Waste Management
Storm-water Management

Hazardous Substances and Detection Techniques
Nutrients removal
Reuse of reclaimed waters
Environment Policy
Satellite Applications in the environment
Management of water treatment residuals
Disinfection and disinfection by-products
Quality guidelines, environmental regulation and monitoring
Environmental Science and Engineering
Environmental Science and Technology
Energy, Environment, Sustainable Development
Environmental Ecology and Biodiversity Conservation
Environmental restoration and ecological engineering
