

# CALL FOR PAPERS

**ICFG 2022**  
**Jun 21-22, 2022**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFG 2022 : International Conference on Fractal Geometry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fractal Geometry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fractal geometry  
Fractals' properties  
Fractal transformations  
Complex dimensions  
Analysis on fractals  
The fractal geometry of nature  
Dynamics  
Mathematical physics

Probability theory  
Calculus of variations  
Fourier analysis  
Partial differential equations  
Complex analysis  
Number theory  
Potential theory
