

CALL FOR PAPERS

ICGISAA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGISAA 2022 : International Conference on GIS Applications for Agriculture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of GIS Applications for Agriculture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

GIS in agriculture	Accurate measurements of paddock sizes for ordering products such as fertilizer and seed
Agricultural science and GIS	Advanced Surveying with GIS applications
Global warming, crop production and GIS	Natural resource ecology and habitat management
Land use planning and GIS	Environmental impact analysis and management
GIS support for precision agriculture	Environmental planning
GIS services and agricultural farm Mapping	Precision farming
GIS, GPS, and remote sensing technologies	Advanced weed management
Agribusiness grows with crop-specific maps	Crop physiology
Farm design and planning	Advanced vegetable science
Farm advisor and staff meetings	Insect pest management
Providing clear instructions to staff and contractors	Cropping systems
Identification of farm assets and hazards to staff and contractors	Advanced surveying with GIS applications
