

CALL FOR PAPERS

ICGSITT 2022 Jun 21-22, 2022 Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSITT 2022: International Conference on Geotechnical Site Investigation Techniques and Testing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geotechnical Site Investigation Techniques and Testing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geotechnical investigation Analysis requirements for structures Geotechnical investigation and testing Geotechnical site investigation methods Test pitting, drilling, soil sampling and rock coring In situ testing, cone penetration testing of soil profiles Geophysical testing Standard penetration test Cone penetration test Geotechnical investigation and testing program Laboratory testing methods for soils and rocks

Applications and limitations
Geotechnical parameter assessment
Location and depth of borings
Boring and sampling
Field record
Laboratory testing
Geotechnical report
Geologic mapping
Geophysical methods
Photogrammetry
