

CALL FOR PAPERS

ICHHIDHC 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHHIDHC 2022 : International Conference on Human Health Implications of Droughts, Health and Climate is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Human Health Implications of Droughts, Health and Climate. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Effects of drought events on human health in the present and future climate
Comparison of different drought indices to identify and quantify the impacts of drought on health systems

Improve knowledge of the mechanisms of vulnerability involved between droughts and health
Elaboration of an enhanced monitoring system by health systems to diminish the effects of droughts
