

# CALL FOR PAPERS

**ICIMIDR 2022**  
**Jun 21-22, 2022**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMIDR 2022 : International Conference on Immunotoxicology, Molecular Immunology and Drug Research is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Immunotoxicology, Molecular Immunology and Drug Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational methods for immunogenicity evaluation  
Immunogenicity assessment for peptide therapeutics  
Immunogenicity assessment for biosimilars  
Immunotoxicity evaluation of novel drug candidates  
Protein aggregation, biological activity and immunogenicity  
Immunological techniques  
Immune regulation  
Immunological aspects of infection  
Immunological aspects of skin diseases  
Immunological aspects of allergy and anaphylaxis  
Immunology of HIV infections  
Immunological aspects of cardiac diseases  
Immunological aspects of renal diseases

Immune-mediated neurological syndromes  
Immunological aspects of endocrine diseases  
Immunogenetics  
Molecular oncology and immunology  
Innate immune system  
Immunopathogenesis  
Immunomicrobiology  
Immunoglobulins  
Immunoglycomics  
Immunoproteomics  
Immunoprophylaxis  
Molecular vaccines  
Antibody engineering
