

CALL FOR PAPERS

ICIMIDR 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMIDR 2022 : International Conference on Immunotoxicology, Molecular Immunology and Drug Research is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Immunotoxicology, Molecular Immunology and Drug Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational methods for immunogenicity evaluation
Immunogenicity assessment for peptide therapeutics
Immunogenicity assessment for biosimilars
Immunotoxicity evaluation of novel drug candidates
Protein aggregation, biological activity and immunogenicity
Immunological techniques
Immune regulation
Immunological aspects of infection
Immunological aspects of skin diseases
Immunological aspects of allergy and anaphylaxis
Immunology of HIV infections
Immunological aspects of cardiac diseases
Immunological aspects of renal diseases

Immune-mediated neurological syndromes
Immunological aspects of endocrine diseases
Immunogenetics
Molecular oncology and immunology
Innate immune system
Immunopathogenesis
Immunomicrobiology
Immunoglobulins
Immunoglycomics
Immunoproteomics
Immunoprophylaxis
Molecular vaccines
Antibody engineering
