

CALL FOR PAPERS

ICISEP 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICISEP 2022 : International Conference on Industrial Security and Emergency Planning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Security and Emergency Planning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial security	Fire prevention and control
Industrial engineering and industrial safety systems	Emergency and disaster planning
Process control systems	Theft and pilferage controls
Industrial control systems	Hardware and software requirements
Plant security	Pressure safety valves
Network security	Mechanical devices
System integrity	Cyber security
Internal controls	Data acquisition systems
External threats and controls	Distributed control systems
Access control	Embedded control
Personnel clearance	Nuclear plants
Document control
