

CALL FOR PAPERS

ICNCT 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNCT 2022 : International Conference on Nickel Chemistry and Toxicity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nickel Chemistry and Toxicity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemistry of nickel
Properties of nickel
Atomic and physical properties
Electron configuration dispute
Isotopes and occurrence
Nickel compounds
Nickel oxides
Nickel complexes
Uses of nickel and its compounds
Extraction and purification of nickel
Electrorefining of nickel

Mond process
Metal value
Applications
Biological role of nickel
Toxicity of nickel
The organic chemistry of nickel
Analytical chemistry of nickel
The electrochemistry of nickel
Carbonylation and related reactions
Nickel contents in environmental and biological materials
