

# CALL FOR PAPERS

**ICONAM 2022**  
**Jun 21-22, 2022**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICONAM 2022 : International Conference on Optical Nano-Antennas and Modeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Optical Nano-Antennas and Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Optical nanoantennas  
Plasmonic nanoantenna  
Dielectric nanoantenna  
Novel all-dielectric and hybrid  
nanoantennas  
Nanoantenna assisted PL emission  
enhancement  
Purcell effect  
Strong coupling of excitons with a  
single nanoantenna

Nanoantenna enhanced optical  
nonlinearity  
Strong coupling  
Excitonic resonances  
High harmonic generation  
2D transition metal  
dichalcogenides  
Modeling of optical nanoantennas
