

CALL FOR PAPERS

ICOTA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOTA 2022 : International Conference on Observational and Theoretical Astrophysics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Observational and Theoretical Astrophysics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Observational and Theoretical
Astrophysics
Astrophysics and Space Sciences
Brown Dwarfs and Planets
Celestial mechanics
CMB Polarization (POLARBEAR)
Computational Astrophysics
Cosmic rays and gamma astronomy
Cosmic Rays, High Energy and
Astronomy
Dark Matter and Energy Theory
Earth-moon system
Earth's surface
Extragalactic astronomy
Extrasolar planets

Gravitation Astrophysics
Heliospheric physics
High-energy astrophysics
Interstellar matter
Life sciences as related to Space
Sciences
Magnetospheric physics
Miscellaneous
Neutrino/Nuclear Astrophysics
Observational Cosmology
Origin of Structure
Particle astrophysics
Planets ionospheres and
magnetospheres
Planets, comets, asteroids and
dust
