

CALL FOR PAPERS

ICRAIS 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRAIS 2022 : International Conference on Recent Advances in Industrial Simulation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Industrial Simulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial simulation
Simulation methodology
Simulation analysis
Discrete simulation languages and tools
Ambient intelligence and simulation
Simulation in manufacturing
Steel manufacturing and new materials manufacturing
Simulation in automotive systems
Simulation in robotics
Simulation in electronics, computers and telecommunications
Simulation in electronics manufacturing
Simulation in computer science
Simulation in logistics, traffic, transport, harbors, hospitals

Apparel and textile simulation
Urban simulation
Complex systems modelling
Simulation in aerospace
Marine simulation
Simulation in industrial and product design
Simulation in engineering processes
Model driven engineering
Simulation in civil and building engineering
Simulation in energy and power systems
Simulation in multibody systems
Simulation in chemical, petroleum and mining engineering
Simulation in military and defense
