

CALL FOR PAPERS

ICRNTA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRNTA 2022 : International Conference on Ruminant Nutrition, Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ruminant Nutrition, Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ruminant nutrition
Classification and taxonomy
Abundance, distribution, and domestication
Ruminant physiology
Rumen microbiology
Tannin toxicity in ruminant animals
Religious importance
Ruminants and climate change
Ruminant feed industry
Principles of ruminant nutrition
Ration formulation and feeding systems
Recent advances in ruminant nutrition
Nutritional manipulation of milk quality

Beef and sheep nutrition
Legislative
Requirements
Milk, beef, lamb and wool production systems
Major internal and external factors of ruminant products
Operational efficiency of a ruminant feed mill
Ruminant digestive tract
Feedstuff analysis
Govern voluntary feed intake in ruminants
Forage and compound feed production and quality
Animal nutrient requirements
Design feeding strategies and systems
