

CALL FOR PAPERS

ICTIE 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTIE 2022 : International Conference on Thermoforming in Industrial Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Thermoforming in Industrial Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Thermoforming and thermoforming process
Manufacturing and design
Industrial engineering
Thermoforming methods
Thermoforming design
Thermoplastic behavior
Heating and cooling
Thin-gauge and heavy-gauge thermoforming

Thermoforming mold making
Vacuum thermoforming
Pressure thermoforming
Mechanical thermoforming
Thermoforming applications
Plastic fabrication in thermoforming
Computational thermoforming and digital fabrication
