

CALL FOR PAPERS

ICTTC 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTTC 2022 : International Conference on Textile Technologies and Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Textile Technologies and Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Principles of textile engineering	Chemical processing
Textile technologies	Technical drawing
Basic computer technologies	Clothing machinery
Textile fibers	Textile chemistry
Classification of textile fibers	Machine design process
Fiber forming polymers	Transmission technology
Methods of investigating fibre structure	Quality management
Yarn manufacture	Factory planning
Yarn structure and properties	Machine dynamics
Principles of opening, cleaning and blending of fibrous materials	Textile physics
Fabric manufacture, structure and properties	Clothing, weaving and knitting
Textile testing	Quality control in textiles
Physical testing of textiles	Fabric design
