

CALL FOR PAPERS

ICTVG 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTVG 2022 : International Conference on Trends in Veterinary Genetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Trends in Veterinary Genetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Veterinary genetics	Single-gene disorders
Veterinary genetic testing	Chromosomal aberrations
Animal genetic resources	Single genes in populations
Animal breeding and genetics	Familial disorders not due to a single gene
Molecular and quantitative animal genetics	Immunogenetics and pharmacogenetics
Trends and advances in veterinary genetics	Hosts, parasites and pathogens
Genetics in domestic animal reproduction	Single genes in animal breeding
Molecular biology and veterinary genetics	Genetic and environmental control of inherited disorders
Molecular biology and genetics for veterinary diagnosis	Relationship and inbreeding
Genetic engineering applications in animal breeding
