

CALL FOR PAPERS

ICUHMS 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUHMS 2022 : International Conference on Urban Hazard Mitigation Strategies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Hazard Mitigation Strategies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Urban disaster mitigation
- Urban hazard mitigation
- Urban risk mitigation
- Urban disaster management
- Urban disaster recovery
- Urban land use management
- Land use planning for reducing disaster risk
- Disaster risk considerations in urban land use plans
- Development control
- Urban redevelopment strategy
- Flood modeling for urban development
- Building codes and planning systems

- Sustainable disaster mitigation planning
- Risk prevention and reduction
- Risk perception
- Community based approaches to disaster mitigation
- Economic aspects of urban vulnerability and disaster mitigation
- Vulnerability reduction for sustainable urban development
- Earthquake disaster mitigation in urban areas
- Earthquake disaster mitigation for urban transportation systems
- Urban flood disaster management
- Structural adjustment, urban systems and disaster vulnerability
- GIS and remote sensing in urban disaster management
