

CALL FOR PAPERS

ICEEI 2022
Jun 10-11, 2022
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEI 2022 : International Conference on Electrical Engineering and Instrumentation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Engineering and Instrumentation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrical engineering and instrumentation
Advanced power system protection
Energy audit and conservation
Modern trends in substation design
Power quality
Recent trends in power generation
Energy efficient processors
Grid management
Communication in power system
Automation and control in power system
Safety in power system operation, maintenance and control
Advance electrical machines
Hvdc technology

High voltage engineering
Power electronics, systems and applications
Soft switching converters
Multilevel converters
Matrix converters
Emerging topologies
Power converters modeling, simulation and control
Power factor correctors
Emi and over-voltage protection
Active filters and harmonics
Power supplies
Power electronics components and packaging
Reliability and fault tolerance
