

CALL FOR PAPERS

ICMFFM 2022
Jun 28-29, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMFFM 2022 : International Conference on Microbial Foods and Food Microbiology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbial Foods and Food Microbiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbial ecology
Metagenomics and microbial
diversity
Starter culture physiology and
genetics
Metabolomics

Functional/probiotic starters
Fermented foods and gut microbiota
Modern tools for fermentation
monitoring
Safety of fermented foods
