

CALL FOR PAPERS

ICAMSN 2022
Jun 14-15, 2022
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMSN 2022 : International Conference on Advanced Materials Science and Nanotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials Science and Nanotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials science and engineering
Materials process engineering
Emerging areas of materials science
Renewable material and energy
Biomaterials and healthcare
Materials processing and genomic engineering

Advanced nanomaterials
Nanotech for energy and environment
Nanotech in life sciences and medicine
Materials chemistry
Nanofabrication, nanometrology and applications
Nanoengineering and its applications
