

CALL FOR PAPERS

ICBECC 2022
Jun 14-15, 2022
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBECC 2022 : International Conference on Bioinspired Energy Conversion and Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioinspired Energy Conversion and Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioinspired energy conversion
Bioinspired solar-energy conversion
Bioinspired chemistry and materials for sustainable energy
Bioinspired energy conversion in nanofluidics
Bioinspired energy conversion systems for hydrogen production and storage

Bioinspired catalysts for energy conversion in fuel cells
Light harvesting and artificial reaction centers
Bioinspired energy conversion and quantum mechanics
Artificial photosynthesis for energy and environment
