

CALL FOR PAPERS

ICNACT 2022
Jun 03-04, 2022
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNACT 2022 : International Conference on Network Architecture and Communication Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Network Architecture and Communication Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Network architecture
Communication network architecture
Design principles
Network architecture trends
Network architecture evolution
Message switching architecture
Network topologies
Network components
Network types and communication technologies
Personal area networks
Local area networks
Metropolitan area networks
Wide area networks

The internet
Security
Circuit switching
Applications
OSI network model
Physical layer
Data-linking layer
Network layer
Transport layer
Session layer
Presentation layer
Application layer
Distributed computing
