

CALL FOR PAPERS

ICSPCN 2022
Jun 03-04, 2022
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPCN 2022 : International Conference on Signal Processing, Communications and Networking is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Signal Processing, Communications and Networking. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Signal Processing	Multimedia signal processing
Biomedical Engineering	Streamed multimedia applications
Control Algorithms	Algorithms and implementations
Embedded Reconfigurable, Evolvable Systems	Image and video processing
Image Processing and Pattern Recognition	Error concealment techniques
Information Theory & Coding	Management of multimedia services
Mixed Signal Processing	Test-beds and trials
Multidimensional Signal Processing	Multimedia games
Radar Signal and Data Processing	Communications
Soft Computing Techniques	Antennas, Propagation and Transmission Technologies
Speech and Video Processing	Avionics
VLSI architectures for high speed processing	Communication Software Techniques
