

CALL FOR PAPERS

ICSEGN 2022
Jun 24-25, 2022
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEGN 2022 : International Conference on Sustainable Energy, Grids and Networks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Energy, Grids and Networks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|---|--|
| Sustainable energy, grids and networks | Oil and Gas exploration, production and distribution |
| Data analysis and computation for power and energy systems | Oil and natural gas markets |
| Evaluation of the energy markets | Environment and climate change |
| Energy Investments | Production of electricity from coal resources |
| Renewable energy investments | Nuclear energy |
| Electricity Generation From Renewable Energy Sources | Financing of energy investments |
| Solar Energy | Energy security |
| Wind Energy | International energy projects |
| Geothermal Energy | Evaluation of energy legislation |
| Biomass Energy Generation | National and international energy trade |
| Hydropower | Technological developments in energy investments |
| Integrated operation of information and communication technologies (ICT) in electrical and energy systems | Operation, maintenance and modernization of power plants |
| Current developments in electricity distribution | Modeling and analysis of modern and future electrical and energy systems |
