

CALL FOR PAPERS

ICHMCSA 2022
Jun 17-18, 2022
Riga, Latvia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHMCSA 2022 : International Conference on Heterocycles in Medicinal Chemistry, Synthesis and Analysis is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Heterocycles in Medicinal Chemistry, Synthesis and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Drugs
Heterocycles
Pharmacophore
Drug design
Computer study
Synthesis
Analysis
Natural compounds

Carbohydrates
Physicochemical properties
ADMET
Biological screening
Chemical biology
Biological chemistry
Biomaterials
