

CALL FOR PAPERS

ICMMM 2022
Jun 17-18, 2022
Riga, Latvia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMM 2022 : International Conference on Metagenomics, Metatranscriptomics and Metabolomics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Metagenomics, Metatranscriptomics and Metabolomics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metagenomics
Environmental genomics
Ecogenomics
Community genomics
Metagenomic analysis
Functional metagenomics

Metagenomics and bioinformatics in
microbial ecology
Metagenomic and whole transcriptome
studies
Bioinformatic analysis
Data generation
Bioinformatics methods for data
analysis and statistical modeling
Bioinformatics and statistical
tools for comparative metagenomics
