

CALL FOR PAPERS

ICEERE 2022
Jun 03-04, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEERE 2022 : International Conference on Environmental Engineering and Renewable Energies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Engineering and Renewable Energies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental Engineering
Carbon Nanotubes
CO₂ Capture and Sequestration
Batteries
Critical Energy Infrastructures
Energy Efficiency
Environmental Engineering Design
Biofuels
Fossil Fuels and Clean
Technologies
Hydraulics and Water Management
Hydrogen Energy and Fuel Cells
Hydrogen Energy Technologies

Improving Environmental Impact
Intelligent Electrical Networks
Nuclear Power Engineering
Opportunities for Renewable
Hydrogen
Power Equipment and Control
Systems
Power Systems
Renewable Energies, Fuels and
Resources
Solar Energy
Thermal Power Engineering
Water Power Engineering
Wind Energy
