

CALL FOR PAPERS

ICEUSER 2022
Jun 03-04, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEUSER 2022 : International Conference on End-User Software Engineering and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of End-User Software Engineering and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

End-user software engineering
End-user development and programming
Cost-benefit modeling
Collaborations in end user development
End-user software engineering and distributed cognition

Future of end-user software engineering
Software engineering for end-user programmers
The WYSIWYT Methodology
End-user computing
Situational application
