

CALL FOR PAPERS

ICCIE 2022
Jun 07-08, 2022
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCIE 2022 : International Conference on Computers and Industrial Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computers and Industrial Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computers and Industrial Engineering
 Applied Operations Research
 Probabilistic and Statistical Models
 Data Mining, Knowledge Discovery and Computational Intelligence
 Multi-Criteria Decision Making and Decision Analysis
 System Simulation and Forecasting
 Information Technology, Web-based Applications
 Supply Chain Management & Logistics
 E-Business and E-Commerce
 Quality, Reliability and Maintenance
 Facilities Layout, Warehousing, Material Handling

Human Factors, Industrial Ergonomics and Safety
 Production/Manufacturing Systems & Processes; Agile Manufacturing; ERPI/APS
 Artificial Intelligence & Expert Systems
 Project Development & Management
 Healthcare Systems Applications
 Design for Manufacturing, Robust Design, Reverse Engineering
 Manufacturing Technologies, Group Technology & Cellular Manufacturing
 Environmentally Conscious Manufacturing
 Industrial Engineering Education and E-Learning
 Service Systems including Energy, Transportation, Communication, Utilities and Environmental Control
 Internet of Things / Physical Internet
