

CALL FOR PAPERS

ICSCC 2022
Jun 07-08, 2022
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCC 2022 : International Conference on Sustainable Computing and Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Computing and Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Green Data Centers
Algorithms for Reduced Power,
Energy and Heat
Qos and Green Computing
Green Software Engineering
Methodologies and Tools
Virtualization Impact for Green
Computing
Green Computing Models,
Methodologies and Paradigms
Green Communications Architectures
and Frameworks

Energy Efficient Network Hardware
Energy-Efficient Communication
Protocols
Case Studies on Green Computing and
Communications
Educational Ecosystems
Ecological monitoring, analytics
and visualization
Low power wireless communication
technologies
