

CALL FOR PAPERS

ICTCFD 2022
Jun 07-08, 2022
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTCFD 2022 : International Conference on Textile Chemistry and Fabric Dyeing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Textile Chemistry and Fabric Dyeing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fabric dyeing
Textile dyeing
Textile dyeing process
Textile manufacturing
Dyeing techniques
Process of adding color to textile products
Coloration
Textile chemistry
Etymology
History
Methods
Direct application
Yarn dyeing

History of garment dyeing
Complex garment dyeing
Special solution containing dyes
Particular chemical material
Dye molecules
Temperature and time controlling
Different classes of dyes
Natural and man-made
Animals or plants
Artificial dyes
Disperse dyes
Broader range of colors
Different types of fiber
