

# CALL FOR PAPERS

**ICGMP 2022**  
**Jun 10-11, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGMP 2022 : International Conference on Current Good Manufacturing Practices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Current Good Manufacturing Practices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing engineering  
Manufacturing practices  
Good manufacturing practice  
Current manufacturing practices  
Agricultural practices  
Laboratory practices  
Clinical practices  
Regulatory practice  
Distribution practice  
Transportation practice  
Research, design and development of systems  
Processes, machines, tools, and equipment  
Raw materials

Modern developments  
Modern tools  
Mechanics  
Automation  
Robotics  
Statics and dynamics  
Strength of materials and solid mechanics  
Instrumentation and measurement  
Engineering design and graphics  
Circuit analysis  
Identify the most cost-effective material handling  
Develop and implement fabrication processes for nano-/micro-devices  
Develop the best assignment of machines and equipment
