

# CALL FOR PAPERS

**ICWSTHM 2022**  
**Jun 15-16, 2022**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSTHM 2022 : International Conference on Wearable Sensor Technology for Health Monitoring is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wearable Sensor Technology for Health Monitoring. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Health wearables  
Health wearable devices  
Wearable technology in medicine and health care  
Wearable technology for medical applications  
Wearable systems for clinical and biomedical uses  
Wearable sensor technology for health monitoring

Wearable sensor technology for rehabilitation  
Wearable technology and preventative healthcare  
Health wearables and health tracking  
Wearable medical devices for tele-home healthcare  
Clinical effectiveness of health wearables  
Privacy, security and consumer protection
