

CALL FOR PAPERS

ICASFS 2022
Jun 21-22, 2022
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASFS 2022 : International Conference on Agroecological Science and Farming Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agroecological Science and Farming Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agroecology
Agroecological science and research
Agroecology and land use systems
Agroecology for sustainable development
Sustainable food systems
Ecological principles for agricultural production systems
Ecological strategies and approaches
Agro-population ecology

Indigenous agroecology
Inclusive agroecology
Applications of agroecology
Control of pests and diseases
Suppressing pests and diseases and improve fertility
Pest and natural enemy population dynamics
Organic specialty crop production
Analysis of nutrient uptake in organic and conventional systems
