

CALL FOR PAPERS

ICABBA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABBA 2022 : International Conference on Amperometric Biosensors for Biomedical Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Amperometric Biosensors for Biomedical Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Amperometric biosensors

Amperometric biosensor for
diagnosis of disease

Amperometric biosensor for
biomedical applications

Bioelectronics for amperometric
biosensors

High-throughput drug screening

Disease diagnosis and treatment

Quality control

Environmental monitoring

Amperometric mediatorless
biosensors

Amperometric mediated biosensors
