

CALL FOR PAPERS

ICABE 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABE 2022 : International Conference on Advances in Biorefinery Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biorefinery Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biorefinery engineering
Biorefinery engineering principles
and applications
Bio-based economy
Efficient and sustainable refining
of renewable resources
Conversion of renewable resources
Industrial biotechnology and
enzymatic biocatalysis
Biorefinery development
Fermentative production

Enzymatic biotransformation
Downstream separation and
purification
Process systems engineering and
assessment
Applied microbiology
Bioprocess development
Biokinetic modelling
Solids processing
Solid state fermentation
