

CALL FOR PAPERS

ICCMPPP 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMPPP 2022 : International Conference on Construction, Materials Principles, Practice and Performance is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction, Materials Principles, Practice and Performance. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction and materials principles
Construction principles materials and methods
Building delivery process
Foundations
Sand and gravel
Mixing concrete
Making columns
Reinforcement
Roofing
Tying walls to structure
Wells, septic tanks, plumbing

Governmental constraints on construction
Loads on buildings
Load resistance
The structural properties of materials
Thermal properties of materials
Air leakage and water vapor control
Fire-related properties
Acoustical properties of materials
Principles of joints and sealants (expansion and contraction control)
Principles of sustainable construction
